NORTHSIDE COMMUNITY HOSPITAL · CARE TRANSITION

Medication dose needs clarification

Discharge summary · Synthetic safety example

SYNTHETIC DEMO ONLY · Fictional patient and instructions for manual software testing. Not for clinical use.

Patient: Jordan Mitchell **Discharge date:** October 13, 2026

Discharge information

Example prepared for manual testing. Patient and facility details are fictional.

Medications

Metoprolol 25: Take by mouth twice daily. **Note:** the dose unit is not stated in this example document.

Care at home

Rest as needed. If an instruction is unclear, contact the prescribing clinic or pharmacist to clarify it.

Follow-up

Follow up with your primary care clinic October 22, 2026 at 11:00 AM. Northside Family Clinic, 1200 Cedar Avenue.

Manual test cue

Expected behavior: show the dose as uncertain and require care-team review. Do not assume a unit.
